HOMES

MODERN  
COMFORTABLE  
YET  
INEXPENSIVE

\$250

THE continued growing demand for our Ready-to-erect Weatherboard Cottages warrants our issuing this new edition of our Catalogue. Included we show a number of modern Bungalow designs which are becoming the most popular in this State. We would like to mention just here that should none of the designs shown in this booklet be exactly what you desire, alter any one to suit your requirements, or furnish a rough sketch showing sizes of rooms, verandahs (if any), door and window openings, when we will be pleased to submit an estimate. We invite the fullest inquiry, our wish being to meet every requirement.

Framing timbers of buildings are cut, morticed, tenoned, marked, and numbered ready to put together. Doors, joinery, windows, fanlights, French lights, etc., are carefully packed to ensure safe carriage. Floorings, linings, walls, and ceiling timbers, together with all mouldings, dressed from thoroughly seasoned timber of first-class quality, full quantities of which are guaranteed. Roofing materials, galvanised iron, ridge capping, spouting, down-pipe, necessary fixing for same, locks, hinges, sash fasteners, etc., with all screws required are included, together with nails of proper size for the entire building. Foundation blocks, bricks for chimneys, internal fittings such as mantels, stove, bath, gas fittings, etc. and paint materials are not provided for in our quotation, but we supply as extras at lowest current rates. When order is placed for any building we furnish to buyer a complete detailed specification, and also provide plans, if required, for Municipal Council regulations.

Erection of Buildings.—This we do not undertake, but can introduce to buyers reliable builders who will quote for the erection and completion of any of our cottages. We absolutely guarantee that all materials supplied for any building purchased from us are the best of their respective kinds, and all first-class quality.

We solicit enquiries, and will give immediate attention to all correspondence received.
